

GRINDING CUP DGS-S 5" PRO TECH

Brand: Distar

Product Code: PRT125GC0012

Availability: 2 - 3 Days

Dimensions: 0.00in x 0.00in x 0.00in

Price: CA\$0.00

Short Description

The GRINDING CUP DGS-S 5" PRO TECH from DISTAR is a professional-grade tool tailored for versatile surface grinding, delivering exceptional performance and comfort even in challenging conditions.

Description

The **GRINDING CUP DGS-S 5" PRO TECH** by DISTAR is the ultimate choice for professionals seeking versatility, precision, and efficiency. Designed to handle a wide range of materials, including concrete, natural stone, tile adhesive, and more, this grinding cup is engineered to make surface preparation seamless and fatigue-free.

Key Features

- **Turbocharged Segments:** Two rows of high-strength segments ensure efficient grinding across various materials, such as:
 - Concrete (standard and reinforced)
 - Brick and sandstone

- Granite and natural stone panels
- Tile adhesive and self-leveling floors
- Cement screed and concrete panels
- **Balanced Design:** The precision-balanced construction minimizes vibrations, providing a smoother user experience and protecting power tools from wear and tear.
- **Lightweight Body:** Weighing only 440 grams, with ergonomic teardrop-shaped holes, the cup is easy to handle, especially on vertical surfaces and ceilings.
- **Wide Compatibility:** Designed for use with manual angle grinders, it accommodates dry grinding for maximum convenience.

Advantages

- **Enhanced Comfort:** The lightweight and balanced design reduces fatigue, making it ideal for prolonged use.
- **Precision Grinding:** Eliminates uneven vibrations for consistent and accurate results.
- **Versatile Applications:** Equally effective on walls, ceilings, and floors, this grinding cup adapts to a variety of surface preparation tasks.
- **Durability:** Built with premium materials for long-lasting performance in demanding environments.

Applications

- **Surface Preparation:** Smooth rough surfaces, remove coatings, or prepare materials for finishing.
- **Ceiling and Wall Grinding:** Optimized for vertical and overhead work with minimal strain.
- **Multi-Material Use:** Perfect for both soft and hard materials, offering

unparalleled versatility.

Specifications

- **Cup Diameter:** 5 inches (125 mm)
- **Weight:** 440 grams
- **Segment Design:** Turbocharged dual-row construction
- **Usage:** Dry grinding compatible with manual angle grinders

Experience Comfort and Efficiency

The **GRINDING CUP DGS-S 5" PRO TECH** combines innovative design with superior performance, making it an essential tool for any professional craftsman. Its user-friendly construction ensures comfort during extended tasks, while its robust build guarantees precision on every job.

Meta Description

Discover the GRINDING CUP DGS-S 5" PRO TECH by DISTAR – lightweight, versatile, and built for efficient surface preparation across various materials.
