

DIAMOND BLADE 1 3/4" BUTTERFLY

Brand: Distar

Product Code: BUT45mm00010

Availability: In Stock

Dimensions: 0.00in x 0.00in x 0.00in

Price: CA\$25.00

Short Description

The **Diamond Blade 1 3/4" Butterfly** delivers ultra-thin, precise cuts with a 0.6 mm diamond layer, designed for use with long neck angle grinders and rotary tools. Perfect for delicate tile and porcelain stoneware work.

Description

DIAMOND BLADE 1 3/4" BUTTERFLY for Long Neck Angle Grinder & Rotary Tools

Precision, durability, and versatility converge in the **Diamond Blade 1 3/4" Butterfly**. Specifically crafted for long neck angle grinders and rotary tools, this blade is the ultimate solution for professionals and enthusiasts who demand exceptional quality in tile cutting and intricate design tasks.

Key Features

- **Ultra-Thin Diamond Layer**
 - At just 0.6 mm, the blade ensures remarkably fine cuts with smooth, clean

edges. This precision minimizes material waste and eliminates chipping, making it ideal for delicate applications.

- **Engineered Durability**

- Unlike galvanic discs, the Butterfly blade features a robust construction for consistent performance over extended use, ensuring lasting reliability.

- **Compact 45 mm Diameter**

- The small size enhances maneuverability, enabling intricate cuts for buttons, hatches, covers, furniture, and fine decorative elements.

- **High Rigidity**

- The disc's rigidity ensures no deviation during cutting, maintaining absolute accuracy for detailed projects.

- **Water Cooling System Compatibility**

- Designed for use with water supply systems, the blade remains cool, reducing wear and enhancing its lifespan during continuous operation.

- **Compatible with Long Neck Angle Grinders and Rotary Tools**

- Versatile design fits a range of tools, expanding its usability across multiple applications in tile and stonework.

Why Choose the Butterfly Disc?

The **Diamond Blade 1 3/4" Butterfly** is the ideal tool for professionals and enthusiasts who need precision and stability. Whether crafting intricate designs or executing clean cuts on porcelain stoneware, this blade offers unparalleled performance for challenging tasks.
